

Samsung U600

As part of the Samsung 'Ultra' range, the U600 is clearly out to impress. Weighing in at just 81g, and at less than 11mm thick, the U600 is one of the thinnest and lightest slide phones ever produced, and features a broad range of gadgets to keep both social and business users amused.

The 3.2 Mega Pixel camera with autofocus, video, flash and digital zoom may appear on paper to be the same as the that featured on the D900, however, keen eyed Samsung fans may note that the shutter speed on the U600 is much faster than its predecessor producing far sharper and clearer images. Other key features to note include the MP3/AAC/eACC/WMA player, Micro SD card slot, v2.0 Bluetooth with A2DP and FM radio, all of which make the U600 an excellent choice for the gadget lover.

For the business user, there is an equally impressive list of features including a Document Viewer for use with Word, Excel, Powerpoint and PDF files, WAP 2.0/xHTML browser, built in handsfree, Organizer and an impressive Business card recognition feature.

General Network GSM 850 / GSM 900 / GSM 1800 / GSM 1900

Announced 2007, February

Status Available

Size Dimensions 103.5 x 49.3 x 10.9 mm
